LAKE SHORE HAS BAD TRAIN WRECK

Three Killed and Three Fatally Injured Early This Morning.

HAD BROKEN AXLE

Freight Jumped the Track and Crushed Into a Passing Passenger.

ENGINE IN A DITCH

Cleveland, Ohio, July 9.—Three persons were killed, three fatally injured and a half dozen slightly hurt in a train wreck on the Lake Shore railway at Nottingham ten miles east of here at three o'clock this morning.

The fast Southwest Limited, east bound, went into a ditch, the engine and coaches with the exception of one sleeper, rolling down a thirty-foot embankment.

On the adjoining track a dozen freight cars are piled in a heap. The dead are:

FRANK ANDERSON, engineer,

O. G. McCULLUM, bill clerk,

Cincinnati;

WM. ELLIOTT, passenger fireman,

Buffalo.

Three unknown tramps were fatal-

ly injured.

The limited was running at a fifty-mile per hour rate when it met

the west bound freight passing on the opposite track. A broken axle on the middle car of the freight threw it in front of the express train, the two trains grinding together.

None of the freight crew was hurt.

CIRCUS MEN ARE TRIMMING THE CITY

Buffalo Bill and Ringling Bros.' Shows Making a Big Display of Posters and Bills.

Ringling Bros. advertising car No. 1 arrived in the city last evening in charge of A. G. Ringling. The bill posting crew of thirteen men lost no time after the car arrived here in covering their boards with posters announcing the coming of the show. A number of the crew worked on the job all night.

Buffalo Bill's crew are also in the city and are covering all of the boards controlled by them with posters. Every awning and the side of every building where a poster could be stuck is covered and in some places banners are suspended from the roofs of the houses.

From the number of tickets given away by both of these shows for the right to hang bills in the windows and on the vacant boards about the city, they will have to get a large outside audience to make any money.

Last year Buffalo Bill followed Ringling and fought them throughout the season and this year Ringlings are following Buffalo Bill and are fighting him.

Both shows give a good performance and no doubt will have large crowds. Their coming so close together will hurt both of them some as many people will not go to two shows so near together.

INHERITANCE LAW LAW TO BE TESTED

Madison, Wis., July 9.—[Special]—The state inheritance tax law is to be tested in the supreme court, notice of appeal having been served upon attorney general, Hicks, from the direction of the Milwaukee circuit court in the case of the will of the late John Black that on inheritance tax of \$3,097.43 with interest from October 5, 1899, is due the state upon the transfer of certain property of the deceased. The executors contest payment of the tax on the ground that the inheritance tax law is unconstitutional and that even under its provisions this transfer being under \$10,000 is exempt. The lower court held that if the whole estate exceeds \$10,000 in value each legacy is taxable.

Cattle Slightly Diseased

E. D. Roberts, state veterinarian, went to Madison this morning to attend a meeting of the Live Stock Sanitary board. The board is trying to find some solution to the question, "What is to be done with cattle slightly diseased?" Heretofore they have been killed and the carcasses buried. The board have an idea that where cattle are but slightly afflicted the flesh might be used for food under certain conditions.

Most of the prominent veterinarians are of the opinion that where cattle are afflicted with a disease that makes it necessary for the safety of the rest of the cattle throughout the country that they be killed, that no part of the carcasses should be used for food.

ANGER SHOWN AMONG THE PYTHIANS; LOOKING FOR \$500,000 OF THEIR FUNDS

Special Session of the Supreme Lodge Began in Chicago This Morning—Aimed at John A. Hinsey.

Chicago, July 9.—In an atmosphere overcharged with financial scandal and accusation, the supreme lodge of the Knights of Pythias met in this city this morning to consider the troubles of the endowment rank of the order.

John Hinsey, the special agent of the Chicago, Milwaukee & St. Paul railroad in this city is the man about whom the storm centers. For twelve years until last January he was the president of the board of control of the endowment rank with almost unlimited power over the handling of \$120,000,000 of life insurance, and by him the bad investments were made.

"Injudicious handling of the funds invested," is what Supreme Chancellor Ogden H. Fethers called the sit-

RUSSIA MENACES GREAT BRITAIN; CZAR THREATENS TO INVADE INDIA

Clash Between the Two Great Powers Seems Inevitable—English Must Cease Their Aggressive Policy in Europe—Russians Ready to Retaliate.

Moscow, July 9.—Russia will surely invade India unless Great Britain ceases its aggressive policy in Europe. It is logically certain that Russia will annex Afghanistan. The time is near when the frontier of Russia's Central Asiatic possessions will be the Hindu Kush mountains, the natural border of India.

Such is the opinion of General Slobodkin. The general lately issued a highly sensational pamphlet entitled "The Possibility of a Russian Campaign in India."

Continuing he said: "English and Russian rivalry dates back from the Crimean war. Since that period England has constantly been endeavoring to keep Russia embroiled with European political trouble."

CAN GO TO HAWAII AND GET A BRIDE

Miss Rose Davidson, Commissioner to Pan-American Fair, Says Lots of Pretty Girls Are There.

Chicago, July 9.—Young men in the United States who want to win both fortunes and beautiful wives need only go to Hawaii. The soil is so fertile there that the new comers can see the sugar cane grow; and, as for the girls there are plenty waiting and willing to become the wives of ambitious foreigners. They are brown women, to be sure, but they are "good looking," for Miss Rose Davidson says so, and she ought to know.

Miss Davidson lives in Honolulu and she is on her way to Buffalo, where she is to represent Hawaii as the commissioner to the Pan-American exposition. She added: "Good looking women, anxious to marry white men, are to be found everywhere in Hawaii, too."

GUIDE BOARDS MUST GO UP Law on the Statute Books to Be Fully Enforced

There is an old law which provides that all roads shall be marked with boards giving direction and distances from the point of intersection to adjoining or important towns. This law through the state and it is seldom that has been generally disregarded though with no person specified as guilty.

The meeting is being held behind carefully guarded doors in the main dining room of the Lexington hotel, which is now controlled by the endowment rank, the hotel bonds which the order holds being one of its bad investments.

BOOMERS READY FOR A BIG RUSH

Thousands of People Camping Along the Border, Ready to Seize Upon the Ceded Indian Lands.

Wichita, Kan., July 9.—When President McKinley's proclamation reaches the border of the Kiowa, Comanche and Wichita Indian reservations Monday morning declaring that reservation open for settlement in August, it will bring cheer to the hearts of 20,000 people encamped. Fully fifty thousand people will take advantage of the free land opening next month, and when the exact date of opening comes the rush will commence.

Already 10,000 persons have encamped in the vicinity of Chickasaw, which is just outside the border.

Hundreds of "boomers" are getting ready to "sooner" claims—that is, they will settle on farms and contest persons who draw them according to government plans. These boomers say the drawing plan is unconstitutional.

It is certain that endless litigation will be started in courts over the new plan of opening. The drawing scheme is in popular favor in the Southwest generally. Sixty thousand people will seek farms in the last reservation to be given away. Many deaths, endless frauds and crimes occur in rushes.

DR. DUDLEY OWNS THE WOODS HOUSE

He Secured This Desirable Residence for \$1,550 This Morning at Public Auction.

Dr. E. H. Dudley is the owner of the large house on the Woods property. He secured the desirable and handsome house for \$1,550 at public auction, this morning, it being the second time that the house has been sold at auction. William Hindes, the well-known contractor, represented Dr. Dudley at the sale and bid in the property. The only other bidder was J. L. Bear whose last bid was \$1,500.

The house as purchased by Dr. Dudley will include the house and gas fixtures, window shades and screens which Dr. Woods has agreed to leave in the building. This agreement was effected between Dr. Woods and the members of the library board although it was Dr. Woods' original intention to remove the fixtures according to his legal rights. By last evening's agreement Dr. Woods' retains the boiler with the formal consent of the representatives of the library board.

There was some talk this morning of having a number of business men buy the house for a club house and had the plan been started a few days ago it would doubtless have been carried out. But the idea was not taken up early enough to have it amount to anything. The building would make a splendid downtown club house and there are several business men who now regret that through lack of thought, the valuable property was allowed to slip through their fingers.

"Yes, that statement is substantially correct."

Mr. Bryan then explained the offer was made and refused. Some time before the missives of Aguinaldo called at the Hoffman house in New York last fall Mr. Bryan received a letter telling him that Aguinaldo's representatives would call and that they would make the proposition to Mr. Bryan that Aguinaldo would give \$100,000 to the democratic campaign fund.

In addition they would promise for the Filipino leader that he would surrender in the event that the Nebraskan was elected and that the surrender would be immediate and unconditional. In return they would exact a promise that a reasonable form of government founded on principles in force in the United States be given the Filipinos.

To all of these appeals the Nebraskan was heedless. He not only refused to see them but he refused to delegate anyone authority to consider any proposition that they might make.

MORGAN WILL SETTLE STRIKE

Plans Agreed Upon to End the Great Steel Struggle.

LABOR MEN AGREE

Conference Will Be Held at Pittsburg on Thursday of This Week.

SHAFFER HAS HOPES

New York, July 9.—The World says: A plan has been agreed upon which will settle the great steel strike within the next five days. As matters stand all that remains to be done is to hold a final meeting to formally ratify the plan and announce its terms. The program now is to hold that meeting and make that announcement on Wednesday or Thursday of this week in New York or Pittsburg. The main points at issue have been settled and there will not be such a gigantic struggle as was contemplated a week ago.

It may be stated that this early settlement is the direct result of J. P. Morgan's efforts. If the conference which is to formally end the strike is held here, it will be at the office of Mr. Morgan; if in Pittsburg at the office of the American Tin Plate company. Representatives of the general board of the United States Steel company, all the subsidiary companies whose interests are affected, as well as the leaders of the various labor bodies in the Amalgamated association, were notified on Saturday night of the coming conference, and were invited to send representatives.

Charles M. Schwab, president of the United States Steel company, who is at Manhattan Beach, declines to discuss the strike. He was asked:

"Will you see Mr. Morgan tomorrow to discuss the terms for ending the strike?"

"Oh, I don't know about that; I see Mr. Morgan every day and we discuss many things."

Fifty yard races by the boys, the girls, the youths, the young men and the married men followed, and a blind race by the boys and then by the girls made things interesting.

Hon. W. H. Tripp was in town last Friday and stated with pride that he had the stars and stripes flung to the breeze at 4 o'clock that morning, which was certainly an evidence of patriotism on the part of the oldest resident of the town. But this was not the only item of interest Mr. Tripp had to relate. On July 2nd, he finished laying at his home what is probably the first mahogany side walk ever laid in Wisconsin, the material of which cost him less than would pine or hemlock. July 3rd marked the one hundred and twenty-third anniversary of the Wyoming massacre, when many of Mr. Tripp's ancestors were slain by the Indians. Mr. Tripp is now over 80 years of age but is still active and energetic.

What threatened to be a serious fire was that which a C. & W. locomotive started near J. B. Humphrey's home last Saturday. Owing to everything being so dry and the high wind which prevailed, a large area of pasture and woodland was burned over before the flames were subdued.

Every precaution should be taken at a time like this to guard against the fire fiend, especially near the railway.

It is not often that a more notable group assembles than that which gathered at the home of J. C. Eddy last week, when the combined ages of a mother, son and daughter, amounted to 253 years. This remarkable trio was Mrs. Susan O. Crossman, who is now in her ninety-ninth year; Elisha Crossman of Chicago, seventythree years of age and Mrs. Helen M. Chandler, of Camden, N. J., aged eighty-one. Mrs. Crossman is very energetic for one who is at the threshold of a century of existence and bids fair to pass the hundred mark. She makes her home with her grandson, J. C. Eddy, where her son and daughter are visiting her.

"Oiling Up."

Just a little oil on the engine at the right time may mean the difference between life and death to the passengers and crew. What oil is to the friction of the delicate parts of the engine, Dr. Pierce's Golden Medical Discovery is to the delicate organs of the body.

It eases their labor, prevents the loss of power and waste of energy caused by friction. Many a man who was all run down, whose limbs ached when he walked, whose back ached when he lay down, who breathed with difficulty, and coughed constantly, has been perfectly cured by the use of Doctor Pierce's Golden Medical Discovery.

Accept no substitute for "Golden Medical Discovery," nor any medicine called "just as good" by the dealer.

Mr. Chas. Hunwick, of Lenox, Macomb Co., Mich., writes: "I have never felt better in my life than I do now. I have taken Dr. Pierce's Golden Medical Discovery and am able to walk quite well with a cane, and hope to throw even that away before long, and as I have had to use crutches for nearly two years, I think I am doing fine. I don't cough now and I can sleep like a school boy. You must know that I have been treated in two hospitals and by many physicians, and I have tried all sorts of medicine, so I think your medicine the only medicine for me."

Dr. Pierce's Medical Adviser in paper cover, is sent free on receipt of one cent to pay expense of mailing only. Address DR. E. V. Pierce, Buffalo, N. Y.

WISCONSIN WEATHER FORECAST.

Generally fair tonight and Wednesday.

NO INTERFERENCE.

The "half breed" press of the state is claiming that Governor La Follette is not interfering with appointments in state institutions. The claim is altogether too transparent to deceive any one. The governor's hand may not be visible to the naked eye. There are several ways of beating the devil around the stump and the governor is equal to the emergency.

He has a door tender and a member of the Board of Control that are ready to do his bidding on the slightest provocation. If he wants a scalp they go after it. This is the only education in which they are thoroughly trained.

Governor La Follette is a machine politician of the close communion order. If he can't create a following that will endorse all of his vagaries he proposes to have a little coterie of office holders that will be loyal to him because of obligation.

He does not interfere, he simply commands, and his willing supes do the rest.

We are apt to lose sight of some of the efforts at popular education unless they are brought forcibly to our attention by comparison. At the recent congress of librarians at Waukesha, the statement was made by a man who is unquestionably a leader in library work, that Wisconsin was next to New York in library development.

Think of this statement for a minute. Melville Dewey thinks that our state has done more work along this line than any other commonwealth in the world, except New York, which leads the world, principally by virtue of the wonderful genius and untiring energy of this one man, Melville Dewey, author of the Dewey system of card cataloguing.

And now comes the wish to participate as a city in the fame won by our state, a desire which can be realized if a few of the suggestions made are followed. As was suggested by The Gazette, let our new library establish a township route similar to the rural mail route so that the farmers who make up so great a part of our wealth can enjoy some of the advantages now denied them. No one man can afford to establish a private library which will meet all of his needs, and with this delivery system in practice he can enjoy any one of the thousands of books which will tend to educate the members of his home to the extent that the school system educates his children.

Wisconsin is forging to the front as a wonderfully rich and resourceful state, and Janesville wants to lend a hand in helping her to merit the praise she is winning because of her libraries and educational institutions.

The completion of arrangements for rapid transit for London transit must have been a great significance to the working men, and consequently to the entire city and nation.

Long hours of toil, together with overcrowded tenement compartments were anything but conducive to proper physical and moral health. Rapid transit and shorter hours of work mean that the laborer can get on his car and travel a distance of six or seven miles to a little cottage with its yard and shrubbery, where rents are no higher and where he can enjoy absolute refreshment in pure air and water and undisturbed sleep.

The immediate effect of these changes in environment even if it means no saving in rent, means an infinite amount of moral and physical enjoyment for the present and the growth and education of children far removed from the crowded streets with their dens of vice and temptation, which continually menace if they do not actually destroy the possibility of a pure life and spiritual growth.

Rapid transit for crowded cities has decreased the death rate by adding ten years to the workingman's life to say nothing of the added enjoyment and recreation.

Russia is retaliating on the little wheat Retaliation deal, with a vengeance. This country was formerly a successful bidder for electrical equipment, but a prohibitive tariff recently adopted, shuts out American competition.

The city of St. Petersburg is about to expend \$10,000,000 for a street railway system. This country would have secured the contract under normal conditions. As it is, our manufacturers are not in it.

country needs the world's markets and it is about time some of the bars were let down.

If the Washington officials are really in the dark as to the authorship of the famous order sent Admiral Dewey, why don't they search the Hon. Walter Wellman and the Hon. Richard Harding Davis?

LATEST FOREIGN NEWS.**Twenty Beguins Arrested.**

St. Petersburg, July 9.—Twenty peasants, twelve of them women, have been arrested and imprisoned in the province of Bassanabia and Kherson for having been implicated in a new outbreak of Beguyn atrocities. The Beguyn is a strange sect which kills many of its votaries, the victims willingly consenting to the sacrifice. The favorite method is to bury alive those selected for the sacrifice. In the cases just discovered the victims were given a more merciful death. Some of the women arrested confess to having smothered members of their families with pillows.

Great Disaster in China.

Tacoma, Wash., July 9.—Canton advises by the steamer Braemer give details of the loss of 300 lives by landslide and flood, occurring at Lung Keng in June. The landslide was caused by a tremendous earthquake, which unsettled land and sea. There were many crashes resembling thunder, and it became very dark. Native accounts state that a great flood of water poured out of the mountains, carrying everything before it. Two hundred houses were swept away and the fields swept bare of crops. Several great landslides occurred, carrying a large portion of Lung Keng into the bay.

Order Is Restored.

London, July 9.—The Argentine minister to Great Britain, Florencio L. Dominguez, is understood to have received a telegram from Buenos Ayres asserting that there has been a complete cessation of the disturbances growing out of the protests against the bill—which the Argentine government has announced its intention to withdraw—for the unification of the Argentine debt.

14,000 British Troops Sick.

London, July 9.—In the house of commons Lord Stanley, financial secretary of the war office, stated that there were last year 6,355 court-martials in South Africa, affecting 9,330 persons. The courts martial were held exclusively for military offenses. There are now, Lord Stanley said, in round numbers, 251,000 troops in South Africa, of which number 14,000 are sick.

OHIO DEMOCRATS MEET.

Delegates Assembling at Columbus for the State Convention.

Columbus, O., July 9.—The delegates and visitors who are assembling here for the democratic state convention are greatly disappointed because John R. McLean of Cincinnati and Tom L. Johnson of Cleveland, who are most prominently mentioned for the United States senatorship, will not be here.

Each of them is ably and numerously represented from the other eighty-six counties as well as from Hamilton and Cuyahoga counties, but the delegates evidently wanted to see these two leaders more than all the others. McLean was their standard-bearer two years ago for governor, and many wanted him for permanent chairman of this convention. Although he has been repeatedly importuned to come to the convention, he has never promised any one that he would be here.

It is understood that Charles W. Baker, who was such a successful presiding officer at the last Ohio Democratic convention, will be the permanent chairman, and he is close friend of McLean and chairman of the Hamilton county delegation.

Johnson was a striking figure in congress and as mayor of Cleveland is attracting as much attention now as Mayor Jones of Toledo with his views on taxation and other proposed changes. Johnson would have been here at the head of the Cuyahoga delegation but for the death of his brother last week in New York. Johnson represents what is called the "radical-reform" element among platform-makers and McLean, represents the conservati-

The ticket will be Kilbourne and Howells, as things stand at present. And the platform will be conservative.

ENGLAND SAYS NO.**Will Not Release American Prisoners Taken in Tranway.**

New York, July 9.—Americans who fight in the Boer armies and are or have been made prisoners by the British will have to endure their captivity until the close of the South African war, says the Herald's Washington correspondent. Great Britain has declined to comply with the request of this government to release an American now confined in the island of Ceylon, and this refusal will probably prove a bar to further representations by the state department in behalf of Americans captured as belligerents in South Africa.

A test case was that of a naturalized American named Morgan, who claims residence in Virginia. Lord Milner, the British high commissioner in South Africa, disapproves of the release of foreigners who fought with the Boers. He has announced that a person who serves as a belligerent with the Boer forces loses his nationality and must be treated as an enemy. This view is concurred in by the legal officers of the state department.

Mrs. C. L. Clark Entertains

Mrs. Clarence L. Clark entertained a small company of friends very charmingly at her home 152 Locust street last evening, in honor of her friend, Miss Marguerite Colwell of Grand Rapids, Mich., who is her guest. Miss Colwell is the daughter of the teacher under whom Mrs. Clark formerly studied and she is a very fine musician. She and Mrs. Clark played one of Chaminade's exquisite compositions for two pianos and during the evening there were several other musical numbers, the musical program being entirely informal and impromptu. A vocal solo by J. S. Taylor and a vocal duet by the Misses Elizabeth Palmer and Franc Edwards were much enjoyed. Games were played during the evening, delicious refreshments were served, and the occasion was one of genuine pleasure.

CONTROVERSY OVER WOODS HOUSE; SOME PEOPLE ARE VERY INDIGNANT

Dr. Woods and Mrs. Graham Are Not Responsible for the "Fluke" in the First Selling of the Residence--The How of It All.

The necessity for reselling the parts were true, because she was not large house, occupied by Dr. Woods, interested and she had not repeat on the public library property, was not because the house was stripped of fixtures. Mrs. Graham did not refuse to take the house for any such reason. Reports to this effect have been actively circulated and they are not only false but are untrue to Dr. and Mrs. Woods.

The only thing that has been taken from the house, which could possibly serve as the foundation for the reports, is a portable boiler which Dr. Woods put in the house last January. When interviewed this morning Dr. Woods was quite indignant over the false misrepresentations that have been made. He said that directly after he purchased All Souls church and began transforming it into flats, a member of a local firm came to him and asked him if he was not intending to use the boiler which had so recently been put in the house. Dr. Woods said that he did not know whether he had a right to the boiler or not and he consulted his attorney who told him that as long as the boiler was a portable one he had as much right to take it out as he would have to move a cook stove. Consequently the boiler was moved over to the flat building immediately before the first auction sale was held.

No Gas Fixtures Touched

Not a gas fixture has been touched although Dr. Woods would be within his legal rights if he had taken them. The contract for the property drawn up by the library board merely stipulated for the lots, the two houses and the barn and legally Dr. Woods is entitled to take any fixtures not nailed to the building or whose removal does not detract the building.

Dr. Woods invited members of the library board to inspect the house yesterday to see for themselves whether he had been engaged in wholesale stealing. He accompanied them on a tour from attic to cellar and suggested, perhaps sarcastically that they take an inventory of their property.

Dr. Woods says that he sold the property to the city with the signed agreement that it was to be paid for in sixty days. As yet he has not received any money while both houses and the barn have been sold and the money for one house and barn has been paid, both houses being sold for a lower price than was offered for them at private sale.

Mrs. Graham Talks.

Mrs. Graham was seen by a Gazette representative this morning and she denies that her refusal to take the property had anything to do with the removal of the heating apparatus. Personally she does not know that anything has been removed from the house though she had heard considerable talk lately that Dr. Woods had taken the heating apparatus, the gas fixtures, the window shades and screens and everything that could be moved. She had not been to the house to see whether these re-

were arrested yesterday by the police and this morning brought into the municipal court. Chief Hogan made a complaint against them charging them with being common drunkards. They looked as if they were on the verge of delirium tremors and needed looking after. Justice Earle, who presides during Judge Field's absence gave them each thirty days in which to get sober.

Fannie Boite, a young girl residing two miles south of this city, had a narrow escape from being badly hurt this afternoon while driving a milk wagon on South Main street near Oakland avenue. She attempted to drive across the street car track just in front of the car which was going at a good rate of speed. The motorman saw her danger, shut off the current and put on the brake. He could not stop the car before it struck the rig, but had reduced its speed so that the wagon was pushed along the track for a short distance and one wheel smashed.

Ringling Brothers still hold the bill boards on the bridge. Mayor Richardson came out of the contest triumphant, on the sidewalk near Basck's clothing store, when the real estate agent began "kidding" the old man, and was quite personal in his remarks. The old man stood the joke as long as he could, and then told the real estate agent "where he was at" in a few words. This enraged the real estate man, who could joke another but could not stand one himself. He used his cane, striking the old man over the head, cutting his scalp and drawing blood. He also struck him across the arm and hand, and would have struck more blows if the bystanders had not interfered.

Attacked an Old Man.

A well known local real estate agent noted for his fondness for joking people, got into a mix up Saturday night with a man old enough to be his father, and all crippled up with rheumatism, and was mean enough to use a cane over the old man's head. The parties to the affair and several others were standing on the sidewalk near Basck's clothing store, when the real estate agent began "kidding" the old man, and was quite personal in his remarks. The old man stood the joke as long as he could, and then told the real estate agent "where he was at" in a few words. This enraged the real estate man, who could joke another but could not stand one himself. He used his cane, striking the old man over the head, cutting his scalp and drawing blood. WANTED HIS HORSE TO Nibble GRASS

Young Dry Goods Clerk Takes His Girl Out Riding—Results Are Not as Anticipated.

There is one young man in this city who the next time he goes buggy riding will not try the experiment of taking the bits out of the horse's mouth to allow him to eat grass.

The young man in question is employed in an East side dry goods establishment as salesman and window dresser. Sunday evening, he hired a horse and a rubber tired runabout from Ryan's livery and took his best girl out for a drive. While going through the country they came to a place where the grass was green and fresh and as the story goes the young man thought it would be a nice thing to give the horse a chance to eat some. He got out of the rig and in order to let the horse have a good chance to eat removed the bits from his mouth. The scheme worked all right for a few minutes, and then the horse took a notion to go home. He whirled around and started off down the road on a run leaving the young man standing in the road. The young lady was still in the buggy and was thrown out after the horse had gone a short distance. She struck against some sharp object when she landed on the ground and had her face so badly cut that a doctor was telephoned for to go to the farm house where she was taken and attended to her bruises and sewed up the cut.

The horse was caught by a farmer living along the road but not until he had made a wreck of the runabout the wheels being broken and the rubber tires torn off.

ENVY WHITE'S SON DEAD

Commits Suicide at His Home in Syracuse.

MELANCHOLIA WAS THE CAUSE.

Manner of Death Was at First Given as an Attack of Hemorrhage—Trip to Berlin Was to Have Been Started Soon.

Syracuse, N.Y., July 9.—Frederick D. White, son of Andrew D. White, United States Ambassador to Germany, committed suicide last night in the bathroom of his home in James street by placing the muzzle of a rifle in his mouth and pulling the trigger with his foot. Prolonged ill health and a persistent and exhausting nervous disease is given as the only possible explanation of his act. Mr. White had appeared to be in usual health during the day and had attended to the management of the White estate. He was alone in the house with the servants during part of the late afternoon, Mrs. White and her son being out. She returned shortly after 5 o'clock and sought her husband in his library. She found that he had been making out his usual monthly checks in the transaction of business and had evidently broken off abruptly. Mrs. White went through the house looking for him and reached the bathroom on the second floor. She there found her husband lying dead on the floor. The bullet had passed through his brain and death had been instantaneous. Eighteen years ago, on completing his course at Columbia Law School, Mr. White had a severe attack of typhoid fever from which he never recovered. Stomach and intestinal troubles resulted. Later his nervous system became weakened and within a few years neurasthenia developed. Nervous prostration is said to have followed the hot wave, which the doctors say brought on melancholia. Mr. White was booked to sail on the steamer Deutschland Wednesday on a visit to his father and in search of health. The cause of death was first announced as cerebral hemorrhage, but this was denied by Coroner Matthews. The family and near relatives are reticent about the shooting and only details that could be learned were those resulting from a hasty examination by the coroner. Mr. White leaves a widow daughter of Postmaster D.K. Bruce, and one son. He was forty-one years of age. He was born in Ann Arbor and was educated at Cornell University and also at the University of Berlin.

HERE

is a HAIR TONIC that PRODUCES RESULTS

And THERE is the proof.

We herewith reproduce a few quotations from testimonials which we have received from well-known people:

Jesse Bartlett Davis, the sweet singer, of 4740 Grand Boulevard, Chicago, Ill., says: "I have tried them all and Danderine is the only one that will stop hair falling. I am glad to have found such a great hair tonic as Danderine."

GOVERNOR RENFROW

Of Joplin, Mo., says, "I can most heartily recommend your Danderine as a safe and sure cure for hair-falling, dandruff and itching scalps. It does all you claim for it."

Miss Mabelle Crawford of 5223 Indiana Ave., Chicago, Ill., the celebrated contralto, says: "Your Danderine not only stopped my hair from falling, but it has increased its growth wonderfully. I heartily endorse it."

Fred McAdams of Milton Junction, Wis., says: "I was bald and Danderine grew my hair as thick and long as it ever was."

E. Burnham, 71 State St., Chicago, Ill., proprietor of the largest and best known hair-dressing establishments in the United States, says: "I use your Danderine in preference to all other hair tonics. It is infallible in its results."

Miss May Denison of 34 Delaware Place, Chicago, Ill., now the longest haired lady in the world, says: "I have used your Danderine two years and my hair has grown over an inch in length every month since I commenced its use. It surely contains most remarkably invigorating qualities."

Miss Sarah McComb of 5496 Ellis Ave., Chicago, Ill., whose hair touches the floor when she stands erect, says: "My hair would not reach below my waist when I commenced using Danderine, and it is now over five feet in length."

Dr. Louis E. Cook of Forest, Ohio, says: "Never in the history of hair tonics has such a high state of perfection been attained."

DID YOU EVER see a stronger combination of endorsements? Are they not evidence of merit beyond question? If such strong and convincing evidence was placed before a jury their verdict would undoubtedly read that Danderine is the greatest such reliable endorsements concerning any other hair tonic? (Remember that last question.) We have an almost unlimited number of endorsements equally as strong and convincing as the above, but we believe that all fair-minded persons will say that if Danderine has done the work in these cases it will do the same in all similar cases, hair falling is always due to an impoverished condition of the scalp. Therefore all cases are parallel, no particular case or money refunded. Danderine is guaranteed not to change the natural color of the hair. MISS SARAH MAC COMB,
5496 Ellis Av., Chicago.

By permission we herewith reproduce a photograph of Miss Sarah McComb, a lady who has lived in Chicago all her life, and is well known in the city, especially on the South Side. Her hair before she commenced the use of Danderine would not reach below her waist, while now it touches the floor when she stands erect. This remarkable growth is the result of using Danderine, the grandest of all hair and scalp invigorators, regularly as a dressing.

TO THE PUBLIC—By request of Miss Sarah

McComb we reproduce the following letter:

Knowlton Danderine Co., 269 Dearborn St., Chicago.—Gentlemen: I am having so many inquiries regarding the head you are sending showing my picture, that I am sending you this letter for the benefit of the public that you may reproduce it, and I will state under oath, if you desire, that I used Danderine for twenty consecutive months and the average growth of my hair was about one and one-half inches per month, making a total of twenty-five inches in twenty months. You are at liberty to use this letter underneath my picture, and by so doing will save me the trouble of answering the large number of inquiries I am receiving daily. Sincerely,

ALLEGED "INSANITY TRUST"

Grand Jury at Indianapolis Is Investigating Charges.

STRONG TESTIMONY HEARD.

John Ross and Others Declare Men Sent to Asylum Without Trial—Damage Suit Is Promised—New Witnesses Are Summoned.

Indianapolis, Ind., July 9.—Whether or not there is in this city an "insanity trust," which makes a business of holding inquests over men and women, sending some to the asylum and declaring others sane, without even notifying them of the charges, is the question before the grand jury, which has begun its investigation. Important evidence was given by John Ross of Chicago and by William B. Depoy, both recently freed as sane from the asylum to which they had been committed without a hearing. Magistrate Lockman, who presided at the "trial," and the city dispensary physician, who gave testimony against the two men and who signed the commitment papers, have been summoned to appear before the jury today. Ross' attorney is preparing papers for damage suits against the men who declared him insane. Several of these, including Magistrate Lockman, are well to do. In today's proceedings before the grand jury it developed that a number of sanity inquests were held on persons who were declared sane by the commission, the person whose mental condition was questioned never having learned of the fact. The fees were collected by the commission members and witnesses, and the attorney general believes a charge of conspiring to extort fees from the county can be made. John Ross was permitted to give testimony which was not admitted during the habeas corpus proceedings, by which he was freed, presenting more in detail the actions of the witnesses and commission which sent him to the asylum. Ross stated positively that Mrs. Elizabeth Cronon, city dispensary matron, who filed the affidavit alleging his insanity, was not present when the dispensary doctors were questioning him. He said she passed through the room a few times, but did not stop to listen to the conversation. He also identified Magistrate W. S. Lockman as the person who called at the dispensary while he was there, looked at a prescription blank, and departed. The law says the magistrate who sits on a sanity commission shall examine thoroughly the person under consideration. Lockman presided over the commission which committed Ross.

Great Men's Mistakes.

Calvin Crane, an eminent Quaker scientist, once said that any man who had the symptom of disease was on the road to the graveyard and that nothing but medicine would hasten his journey. Mr. Crane abhorred the doctrine of medicine and ridiculed it on every possible occasion. And yet he lived to receive the reverence of a nation because of the wonderful virtue of a medicine which he compounded. The medicine became known as "Quaker Tonic," and handed down through six generations the prescription is still surrounding the man's life with an increasing glory. Thus a profession, to which in his early life he was bitterly opposed, was destined to lift his name to prominence in history. When sick and exhausted from long hours of scientific research he was often heard to say: "Of what avail the greatest gifts of heaven when drooping hearts and spirits go amiss? Health is the vital principle of bliss." Quaker Tonic Tablets, which are compounded from the prescription of this eminent Quaker physician and scientist, are a remarkable cure for troubles of the kidneys and liver, biliousness, backache, dizziness, sour stomach or indigestion, and for eczema. The direct action is on the liver, purifying the blood. The restoration of the other functions to normal action is immediate. Quaker Tonic Tablets are for sale at all druggists'. 50 cents a box, 6 boxes \$2.50. If you can't get them, write the Penn Drug Co., Oshkosh, Wis., for free sample and for free booklet, "Quaker Tonic Truths," a valuable volume on human sickness.

WOMAN**IS LIKE A DELICATE MUSICAL INSTRUMENT**

In good condition she is sweet and lovable, and sings life's song on a joyful harmonious string. Out of order or unstrung, there is discordance and unhappiness. Just as there is one key note to all music so there is one key note to health. A woman might as well try to fly without wings as to feel well and look well while the organs that make her a woman are weak or diseased. She must be healthy inside or she can't be healthy outside. There are thousands of women suffering silently all over the country. Mistaken modesty urges their silence. While there is nothing more admirable than a modest woman, health is of the first importance. Every other consideration should give way before it. Bradford's Female Regulator is a medicine for women's ills. It is the safest and quickest way to cure leucorrhœa, falling of the womb, nervousness, headache, backache and general weakness. You will be astonished at the result, especially if you have been experimenting with other so-called remedies. We are not asking you to try an uncertainty. Bradford's Regulator has made happy thousands of women. What it has done for others it can do for you. Sold in drug stores for \$1 a bottle.

Street Services Held in the Tenement Districts.

BIG DAY FOR CONVENTION.

Noted Ministers and Laymen Talk at Crowded Meetings Held in Cincinnati. Ohio—Diseases Timely Topics—Moody's Son and Sheldon Speak.

Cincinnati, O., July 9.—The programme arranged by the committee made a great day of the Christian Endeavor convention. Many meetings were held and all were large and enthusiastic. Revival meetings held on street corners in the tenement and manufacturing districts were addressed by men and women delegates. The music hall auditoriums were in use during the morning, noon, and evening. The chief event of the meetings for the day was the extemporaneous talk at the Central Christian Church of the Rev. G. Campbell Morgan of Baltimore, who is recognized among the church workers as the logical successor of Dwight L. Moody. He talked on prayer, on its foundation from the technical standpoint in the scriptures. At the big rally in Auditorium Endeavor the Rev. Tunis Hammill of Washington presided. The Rev. Ira Landrith of Nashville, Tenn., spoke on the home as "the happiest place on earth, and said that the more altars there are in the home the less skeletons there are in the family closet. Dr. J. E. Pounds of Cleveland told them what are the best books, how to read them, as well as select and digest their contents. At the First English Lutheran Church Treasurer William Shaw of Boston was the principal speaker. His topic was: "How to Hold the Boy," and he said in part: "Don't be goody-goody. Don't have the hero of all your illustrations a beautiful, sweet little girl. Give the boy a chance to win even if he is homely and rough and a trifle unconventional. Don't be afraid of a little noise and restlessness. It is a sign of life. Direct it and use it rather than simply try to suppress it. Don't always blame the boy for your lack of ability to interest him. Don't let him grow up with the idea that only women are interested in religious work." The big meeting of the afternoon was held in Auditorium Endeavor, where George B. Graff of Boston presided. The Rev. C. Lee Gail of Philadelphia spoke on "A Century More of Christian Endeavor Pledge." William B. Moody of Northfield, Mass., son of the evangelist Dwight L. Moody, expatiated on "Your Testimony in the Meeting." Women predominated in Auditorium Williston at the afternoon meeting. Professor James Lewis Howe of Lexington, Va., having it in charge. The meeting was called "The Twentieth Century Christian Endeavor Society, and it, too, was largely devoted to an open parliamentary session. The Rev. Charles M. Sheldon of Topeka, Kas., spoke of "The Daily Paper of the Twentieth Century." He did not assume, he said, that there were no good daily papers. Neither did he assume that the press was hostile to suggestions which simply had for their object the possible bettering of journalism; but he did assume that there was a large and undeveloped field open to the daily press which was not at present cultivated. A marked feature of the paper should be, he said, prohibition, and another feature the prominence given to the work done by Christian missionaries. The paper should also take large account of the social movements of the times.

Enjoins Cleveland Strikers.

Cleveland, O., July 9.—Judge Wing of the United States circuit court issued a sweeping injunction against the striking molders, on the application of the Otis Steel company of this city. It enjoins local No. 218 of the Iron-molders' Union of North America from picketing the premises or interfering in any manner whatsoever with the business or the employees of the Otis company.

Many Injured in Collision.

Columbus, O., July 9.—Pan-Handle passenger train No. 19, known as the New York express, was side-wiped by a switch engine just outside the Union Station here. Twenty-five persons were more or less injured, seven of them being so badly hurt that they were unable to proceed on their way west with the train. They left, however, on a later train.

Father Shoots Three Children.
Halifax, N. S., July 9.—While his three children were sleeping Sydney Locke, a prominent citizen of Lockport, entered the room and shot them. Ruby, fourteen years old, and Ermine, eight years old, died instantly. Howard, eleven years old, is still living, although fatally injured. Locke was temporarily insane.

DENVER THUG KILLS CHILD.

Man Believed to Be Kansas City's "Jack the Ripper."

Denver, Colo., July 9.—Christ Jensen, an insane laborer, was found wandering about South Denver at midnight brandishing a bloody knife and covered with gore. He was arrested. At the same moment J. Gingore, a wealthy transfer man, telephoned police headquarters that his little daughter was missing. He had been aroused by her screams, and after breaking in a barricaded door of her room found her bed saturated with blood and the child gone. Thirty minutes later the child's body was found, hacked to pieces. Jensen is undoubtedly the thug who has terrorized the women of Denver for two years and who has already killed two. It is almost certain he killed the child last night.

COKE DANDRUFF CURE
UNIVERSALLY APPROVED
Public Quick to Appreciate the Honest Efforts of the A. R. Bremer Co.

A Fair and Open Test of Their Great Cure Not Only Court, but Demand.

Two full days the papers of Janesville gave public notice that the proprietors of Coke Dandruff Cure would, if their claims could be substantiated, revolutionize the treatment of dandruff and all hair and scalp troubles, and that the public might be given the benefit of this revolution without cost, they were invited to obtain a free sample bottle at Smith Drug Co.'s drug store.

In this open war everybody would be able to form their own judgment as to the value of Coke Dandruff Cure. The free test called for no restrictions. Physicians were not barred, in fact they were welcome, and are still further proof of the truth of the claim. The distributor, located at Smith Drug Co.'s drug store on State Street, A. R. Bremer Company's representative will, even now, be glad to furnish free, to all physicians who apply, a sufficient quantity of Coke Dandruff Cure to make a test, and in their judgment may be necessary. Coke Dandruff Cure is guaranteed to cure dandruff, falling hair, and is the best tonic in the world today.

For sale by all druggists. All first-class barbers use it.

Admiral George Dewey writes: "I have used Coke Dandruff Cure for the past year and found it excellent preparation."
